1. **Style (style.js) module: .getStyle() (2, 1, 3)**
   1. Should return proper style via CSS style name
   2. Should return proper style via DOM style name
2. **Style (style.js) module: .setStyle() (1, 1, 2)**
   1. Should be able to change styles via background-color
3. **DOM (dom.js) module: Inserting html "after" (2, 1, 3)**
   1. Died on test #2: Object doesn't support this property or method
   2. Expected 5 assertions, but 2 were run
4. **DOM (dom.js) module: Inserting html "before" (1, 1, 2)**
   1. Died on test #2: Object doesn't support this property or method
5. **DOM (dom.js) module: Inserting html via "inner" (1, 1, 2)**
   1. Died on test #2: Object doesn't support this property or method
6. **DOM (dom.js) module: Inserting html via "bottom" (1, 2, 3)**
   1. Died on test #3: Unknown runtime error
7. **DOM (dom.js) module: Removing html elements via "remove" (2, 0, 2)**
   1. Died on test #1: Object doesn't support this property or method
   2. Expected 2 assertions, but 1 were run
8. **DOM (dom.js) module: .html() (2, 1, 3)**
   1. Died on test #2: Unknown runtime error
   2. Expected 4 assertions, but 2 were run
9. **DOM (dom.js) module: .attr() (1, 1, 2)**
   1. Should be able to un-check a checkbox-type input element, expected: false result: true
10. **Events (event.js) module: .on(event,function() { ... }) should bind anonymous function to selected element, and should be triggered by .fire(event) call (2, 0, 2)**
    1. Died on test #1: Object doesn't support this property or method
    2. Expected 2 assertions, but 1 were run
11. **Events (event.js) module: .un(event) should unbind event handler from selected element (1, 0, 1)**
    1. Died on test #1: 'cache' is undefined
12. **Events (event.js) module: .on(event) should be able to bind a custom event (1, 0, 1)**
    1. Died on test #1: Object doesn't support this property or method
13. **Events (event.js) module: .un(event) doesn't interfere with other events registered on the element (1, 0, 1)**
    1. Died on test #1: 'cache' is undefined
14. **Events (event.js) module: .on(event) and .fire(event) should handle multiple events gracefully (1, 0, 1)**
    1. Died on test #1: Object doesn't support this property or method
15. **Events (event.js) module: Should be able to unbind specific events using .un(event, handler) (1, 0, 1)**
    1. Died on test #1: 'cache' is undefined

16. **Events (event.js) module: Should not bubble custom events if stopping propagation (1, 0, 1)**
    1. Died on test #1: Object doesn't support this property or method
17. **Events (event.js) module: Should be able to create bespoke events (1, 0, 1)**
    1. Died on test #1: 'x$.events' is null or not an object
18. **Events (event.js) module: Bespoke events should not leak to other elements (1, 0, 1)**
    1. Died on test #1: 'x$.events.tripleclick' is null or not an object

Tests completed in 1444 milliseconds.
43 tests of 66 passed, 23 failed.

☐ Hide passed tests ☐ Hide missing tests (untested code is broken code)
